

# Carbon Reduction Plan

Supplier Name: Praxis Medical Ltd

Publication Date: 21st May 2026

## Commitment to achieving net Zero

Praxis Medical Ltd is committed to achieving Net Zero emissions by 2045.

## Baseline Emissions Footprint

Baseline emissions are a record of the greenhouse gases that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions.

Baseline emissions are the reference point against which emissions reduction can be measured.

<b>Baseline Year: April 2021/ March 2022</b>	
<b>Additional Details relating to the Baseline Emissions calculations.</b>	
Emissions data had not been published in prior years therefore we selected 2022 as our base year.	
<b>Baseline year emissions:</b>	
<b>EMISSIONS</b>	<b>TOTAL (tCO<sub>2</sub>e)</b>
<b>SCOPE 1</b>	<b>1.27</b>
<b>SCOPE 2</b>	<b>3.87</b>
<b>SCOPE 3 (INCLUDED SOURCES)</b>	<b>5. Waste disposal– 0.26</b> <b>4/9. Freight Transportation &amp; Distribution upstream and downstream – 865.72</b> <b>7. Employee Commuting – 2.78</b> <b>6. Business Travel – 1.3</b> On average travel to hospital sites/seminars in UK <b>7. Homeworking – 0.45</b> Introduction of working from home 2 days a week to decrease commute/electricity use. <b>Total - 870.51</b>
<b>TOTAL EMISSIONS</b>	<b>875.65</b>

<b>Current Year: April 2025/March 2026</b>	
<b>Current year emissions:</b>	
<b>EMISSIONS</b>	<b>TOTAL (tCO<sub>2</sub>e)</b>

<b>SCOPE 1</b>	<b>0.216</b>
<b>SCOPE 2</b>	<b>0.007</b>
<b>SCOPE 3 (INCLUDED SOURCES)</b>	<p><b>5. Waste disposal– 0.475</b> Small employee based business therefore we do not create much waste, and most packaging received to us is used to send out to customers therefore re-packing not necessary</p> <p><b>4/9. Freight Transportation &amp; Distribution upstream and downstream – 106</b> Record of the emissions produced by transportation of goods to the UK, to our site and then to customers.</p> <p><b>7. Employee Commuting – 1.05</b> Small employee based business therefore employees car share due to close home locations</p> <p><b>6. Business Travel – 0</b> On average travel to hospital sites/seminars in UK (none held in current year report)</p> <p><b>7. Homeworking – 0.123</b> Employee working from home 5 days a week to decrease commute/electricity use.</p> <p><b>Total - 107.648</b></p>
<b>TOTAL EMISSIONS</b>	<b>107.871</b>

### **Emissions reduction targets**

Our baseline year emissions reduction commitment was to partake in activities to assist in our main carbon reduction target to decrease carbon emissions over the next five years to 600 tCO<sub>2</sub>e by 2027. We have already completed this target, and will continue to maintain this as well as decrease carbon emissions by next year by a further 5% of current emissions.

We have set a new reduction commitment for the year going forward to provide more training to suppliers to look into sustainable methods of transport of goods to reduce freight transportation by 5%.

In order to continue our progress to achieving Net Zero since the base year 2022, we have adopted the following carbon reduction targets:

We project that carbon emissions will decrease over the next year to 102.47745 tCO<sub>2</sub>e by 2027. This is a reduction of 88.29% from 2022 and the projection is to reach net zero carbon by 2045.

## **Carbon Reduction Projects**

Carbon reduction projects have included:

- ISO 14001 implementation and updating
- Evergreen Assessment completion, monitoring and annual updating ·

Continued promotion of Car share, to monitor employee commute emissions

- Reduced dependency in warehouse; therefore warehouse is not needed for full day decreasing Scope 1 and Scope 2 usage.
- Recycling/reusing boxes for storage at work or personal use
- Continued implementation of Homeworking

## **Declaration and Sign Off**

This Carbon Reduction Plan has been completed in accordance with PPN 06/21 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard<sup>1</sup> and uses the appropriate Government emission conversion factors for greenhouse gas company reporting<sup>2</sup>.

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard<sup>3</sup>.

This Carbon Reduction Plan has been reviewed and signed off by the board of directors (or equivalent management body).

Signed on behalf of the Supplier:

Name: Mr Habib Rehman  
Position: Director
